

# FESTIVAL OF PLACE

## Partnership opportunities

**Align. Connect. Be part of it.**

---

**10 June 2026, BoXPark Wembley**

# About us

**We bring  
leaders and  
influencers  
in impact  
property  
together to  
network, learn  
and be inspired**

The Festival of Place is an annual live event and a series of digital events serving a growing community of development directors and property professionals in the public and private sector committed to making a positive social and environmental impact through their work. We bring together likeminded local authorities, developers, investors, architects, government and consultants and host inspiring, creative and challenging conversations. Our growing community cares about issues of shared prosperity, sustainability and the spaces between the buildings. At our events, they meet up, learn from each other and our expert speakers, and share fresh insights in a uniquely relaxed and thrilling festival atmosphere. We make them proud to be part of a creative and progressive subset of the built environment industry that seeks to balance people and planet with profit, work with communities and make a positive impact through their work.

**“Not only do we meet good  
clients but also people that we  
want to collaborate with”**

# Who attends?

**Director-level individuals working on UK regeneration projects in partnership and on teams that span the private and public sector**

# our digital events series

Our digital events are all about learning – ideal for sponsors looking to share a piece of research or a case study with our audience who are seeking the intelligence they need to influence key stakeholders and make evidence-based decisions

## FESTIVAL OF PLACE social impact

Festival of Place: Climate Resilience features case studies, research and evidence-based approaches to climate resilience through property development. It's an online event streaming live for two days, 2-3 February, 11.00-14.00, everything recorded and available on demand on our bespoke and branded digital event platform.

## FESTIVAL climate resilience OF PLACE

Festival of Place: Social Impact covers how to measure and make a positive place-based impact through property refurbishment or development. The event streams live 20-21 October, 11.00-14.00, across two days of long lunches, everything recorded and available on demand.

## bytesize FESTIVAL OF PLACE

Our popular Bytesize events build on the Festival brand with sponsored free lunchtime learning webinars that invite our audience to take a deep dive into a single hot topic or case study in a maximum 90 minute session with Q&A.

# digital events packages

Our online events are highly valued by our audience as they are focussed on learning. Ideal for launching research, sharing case studies or sharing thought leadership offering a deeper dive into the content - streamed live with Q&A, plus everything recorded and available on demand.
